The avowal of such a policy affords a key to the mystery of his whole course. Ejected and cast out by the Constitutional Democracy, he seeks, in a new organization, that distinction the insatiate desire of which has proved his ruin. He may accomplish his purpose in New England; but will he be equally successful in Virginia and North Carolina? I cannot believe it. Will the Democracy of the State give their votes to

an electoral ticket got up for its own destruction? I think not, and was surprised that a sufficient number of deserters from the party could be found to serve as elec- | bloodshed. tors; but this surprise was removed when I learned that of the ten electors about one half of the number had not been operating with us long enough to have "the shell clean off their backs;" one or two more come and go as the wind listeth, and the balance were never known to age business doing at unchanged prices. have given a Democratic vote. With all due respect to peir social positions, I consider them as un the confidence of the Democracy of the State.

I have extended this letter much beyond the limits I intended when it was commenced. In conclusion, allow me to thank you for the compliment you pay me, in asking me to address the citizens of Lillington, and to inform you that on my return from the North 1 will appoint a day when I can discharge that duty. Yours respectfully,

W. S. ASHE. To Mr. J. Moore, Dr. S. S. SATCHWELL, and others.

The Mother's Mission.

A great emperor once asked one of his noble subjects what would procure his country the first place among the tations of the earth. The nobleman's grand reply was, Good Mothers!" REVIEW OF THE WILMINGTON MARKET. FOR THE WEEK ENDING SEPTEMBER 12TH, 1860.

TURPENTINE-During the week just ended the market for this article has been unsettled, and notwithstanding the small quantity arriving prices have further declined, and are ing here. now 5 a 10 cents lower than quoted on Wednesday last. The last sales made were at \$2 30 for yellow dip, \$1 84 for virgin, and \$1 15 for hard, per bbl. of 280 lbs .- the market closing quiet, with a limited demand from distillers;-no 34 cents. shippers at present purchasing. The sales for the week

reach only 3,486 bbls., as follows: Virgin. Yel. Dip. Bbls. Wednesday. 595.....\$2 40.....\$1 92......\$1 20 Thursday,.... 400. Rosin .- Since our review of Wednesday last the market has ruled quiet, and the lower grades have been almost entirely neglected, only one or two small lots having changed hands. For fine No. 1 there has been a moderate demand, but we have only small sales to report, buyers generally betains 900 or 1,000 acres, about one hundred and twenty-five ing unwilling to accept the prices offered. We quote sales of which is under cultivation, and is very good for Corn.— for the week of 1,796 bbls. No. 1 at \$1 25, \$1 624, \$1 75, The woodland is very well timbered with Pine, and there is \$2 25 to \$3 per tale bbl and per 280 lbs., according to quala large body of good Turpentine land adjoining it that has ity. For No. 2 there has been no enquiry, and not a single transaction has taken place that we can hear of. We quote nominally at \$1 10 a \$1 15. For Common the market has ruled unusually quiet under the advices received; some par-cels are offering at \$1 05 per 310 lbs., but buyers are unwilling to purchase unless at a lower figure. On Monday a lot of 130 bbls, sold at \$1 per bbl.; no other transactions re-

ported. In the absence of sales the stock in first hands is accumulating, and may be considered fully fair-TAR.—The arrivals for some time past have been unusually light, and we notice a fair demand from chippers. Only about 60 bbls. received for the week and sold at \$2 per bbl. BEEF CATTLE AND SHEEP .- We have no chenge of consequence to report in either. The market is at present moderately supplied with inferior and ordinary quality of beeves, for which there is but little demand, while prime is scarce and wanted and would readily be taken by butchers at a fair quotation. We quote sales at 5½ to 6 cents per lb., according to quality. For Sheep there is a moderate demand for butchering purposes, and a prime article sells quick.—
We quote at \$1 50 to \$2 25 each.

Barrels.—In the market for empty Spirits Turpentine

barrels we have no change of consequence to report. There is a fair stock of second hand ones on market, the bulk of which are of inferior quality, and difficult of sale except at low figures. No sales have taken place except in the small way, and we refer to our table for the range of quotations. The supply of New York make has become pretty much worked off, in the absence of receipts, and we notice a fair demand from buyers. We quote at \$2.10 a \$2 15 for second Corron.—For the want of stock there is nothing doing in this article. One bale of new was brought in and sold on

Saturday at 13 cents per lb. Coffee-No receipts worthy of note for some weeks past granaries at 90 to 95 cents per bushel.

DRIED FRUIT—For Apples there is some demand, and we Sept. 19, 1860.

quote sales of one or two parcels at 42 cents per lb. for

FEATHERS -Are in brisk enquiry, and the market has become almost if not entirely bare. We quote at 50 to 55 cts. per 15., though a lot of prime quality would very probably ring a higher price. FISH.—The arrivals of Mullets so far this season have been light, and there are very few on market. A fair demand exists, and parcels find ready sale. Two or three H. Chadbourn & Co. small lots (in all about 75 bbls.) have been received for the week, and sold at \$6 75 a \$7 for pine, and \$7 75 for oak bbls. Howell. FLOUR-Since our last the advices from abroad have been favorable and report an advancing tendency in prices; notwithstanding which facts the market here has ruled quiet,

the high prices at which it is held having the effect to check

transactions. The arrivals both by river and railroad con-

tinue light, though the stock in first hands has become some-

what better, and appears to be fully sufficient for present wants. For the week we quote sales of only two or three B. G. Worth. small parcels of State brands at \$7 75 per bbl. for superfine which is a decline on former quotations, and the market closes inactive. A few lots of Northern brands are in store, which are selling at \$7 50 per bbl. for superfine. GUANO-Continues to be in moderate stock, and there is only a small business doing at present. We quote sales from store as follows: No. 1 Peruvian \$60; Reese's Manipulated \$52; American \$40; Sombrero \$35; Super-phosphate of Lime \$50, and Land Plaster \$10 per ton, in lots of one ton

and upwards. GRAIN-In the CORN market we have nothing new to report. Only two cargoes have been received for the week, which have gone into store, and therefore we have no sales to notice. There is a full stock of former arrrivals in the hands of dealers, and no demand except for prime quality, which would meet with ready sale at a fair price. In the absence of transactions we quote nominally at 721 a 75 cents per bushel, according to quality.——Oars—The market is moderately supplied with this article, and rules quiet. No IN BELOW.—Schr. A. J. DeRosset, Tucker, from N. York. sales except in the retail way, and our quotations in table are merely nominal. PEAS-We have heard of no receipts worthy of report for a few weeks past, and in cousequence the supply in dealers' hands has been somewhat re duced; it is, however, sufficient for present demand. We refer to our table for quotations.——hicz—In the absence ell; with 2900 bushels corn. of receipts the stock of clean has become materially reduced, and little or none remains in first hands. There is a lage; with naval stores. fair demand from the trade, and we quote the market firm

last, and prices are a shade lower. About 2,887 casks have been received by dealers during the week, and we note sales from wharf at 85 a 90 cents, and from store at 95 cents a \$1 per cask for common lump, as in quantity. Molasses .- There is a moderate stock of Cuba on market, and only a small business doing. We quote from first hands at 24 to 26 cents per gallon, in hhds. POTATOES .- Sweet are brought in pretty freely, and sell from carts at \$1 per bushel.

POULTRY-Is brought to market sparingly, and high prices are readily obtained. We quote chickens at prices ranging from 15 to 25 cents each. PROVISIONS-The Bacon market continues to rule firm, and is poorly supplied. The arrivals of N. C. cured have been unusually small for some weeks past, and little or none remains in first hands. There is a fair demand from retailers, but owing to the light stock we have only a few small sales to report at 134 a 14 cents for hog round, as in quality, and 15 cents per lb. for hams. Western cured is in rather better stock, though still quite light for the season, and there is merely a retail business doing at present high prices. We 132 cents per lb. for sides—generally held at highest figures. & D. McRae & Co.; with 1196 bbls. naval stores. -LARD - The market is very poorly supplied with both N. A lot of 500 sacks Liverpool ground was received coastwise on Thursday last, and sold at \$1021 per sack, cash.
Shingles—The demand for the past two or three weeks has been confined to parcels for building purposes, there being no shippers in market at present. Only small boat loads have been received, however, and sold at \$3 to \$3 25

for Common, and \$5 to \$5 50 per M. for Contract. TIMBER-Has been brought to market sparingly for a few weeks past, and nearly all received has been of inferior quality, which is dull of sale, while for prime there is a moderate demand from millers, and fair prices are paid. Sales for the week of only two rafts inferior at \$4 per M. FREIGHTS .- We have nothing new to report in the market for coastwise rates; at present there is not much produce offering for shipment, and the market is quiet but firm at quotations in table.

A gentleman of this place, (a lawyer,) has been bald ever since his youth; so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give it to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the
